Key Largo Fisheries, located at 1313 Ocean Bay Drive, is one of the few remaining fisheries in the Florida Keys. Included in the transaction were three parcels covering more than an acre of waterfront property and featuring a 4,500-square-foot warehouse, an in-house market, outdoor restaurant and 32-slip marina. Basin bay bottom and channel bay bottom leading out to the Atlantic Ocean were also part of the sale.

The fishery purchases fresh seafood directly from local fishermen, processes it in-house and distributes it wholesale to local restaurants throughout the Keys and South Florida as well as directly to retail shoppers. The business is also a top provider of ballyhoo bait.

Summit is a private company led by local real estate and food service professionals Bob Charney and Marc Anderson.
